PROJECTS

Websy AI, Agency Website

About: Built a visually striking portfolio site for my agency using HTML, CSS, and JavaScript, featuring a lightbox gallery, smooth transitions, and responsive layout. Optimized for fast loading and mobile device

Layers Website

About: Created a high-converting landing page for a digital product using React and Tailwind CSS, featuring a lead capture form, countdown timer, testimonial slider, and mobile responsiveness. Integrated with email marketing tools.

Horizon Website

About: Created a high-converting landing page for a digital product using React and Tailwind CSS, featuring a lead capture form, countdown timer, testimonial slider, and mobile responsiveness. Integrated with email marketing tools.

Johnny's Juice Website

About: Designed and developed a simple, clean website for a local spa/salon that includes service listings, online booking integration, and WhatsApp CTA buttons. Mobile-first design with a focus on user-friendly navigation.
